

CHAPTER V

CONCLUSION

This chapter focuses on the conclusion of the analysis of the research entitled *The Swear Words Analysis in The Wolf of Wall Street*. This research concerns with the kinds of the swear words, and the purposes of using the swear words which is used in the movie. That is why the theories and the method to analyze the data is applied to drawn the conclusion.

Based on hughes's classifications, the result of the analysis in the datum shows that there are 142 data of swear words found in *The Wolf of Wall Street*. Moreover, the data is divided into seven kinds. The first is swear words related to sex or genital organ that 12 data are found, the second is swear words related to excrement that 17 data are found, the third is swear words related to name of animal that 4 data are found, the fourth is swear words related to personal background that 1 data is found, the fifth is swear words related to sexual activity that 95 data are found, the sixth is swear words related to taboo or religion or oath that 6 data are found and related to taboo that 6 data are found, the seventh are Swear word related to mental illness that 1 data is found. Even though there are 142 data, not all the data have a reason as why the swear words are uttered by the speaker, and the reasons mostly to show seriousness and anger of the speaker.

Regarding to the method that is used to analyze is said to be descriptive method. The method describes all the population that can be found in *The Wolf of Wall Street*. Thus, total sampling is used for all the sample or all the population that can be found in *The Wolf of Wall Street*.

There are several conclusions that can be reached from this research. First, there are exactly seven classification of Hughes's which appear in this movie they are, swear words related to sex, swear words related to excrement, swear words related to the name of animal, swear words related to religion, oath, or taboo, swear words related to mental illness, swear words related to sexual activity, swear words related to personal background, all of it can be found in this movie. Furthermore, there are eight swear words that can express someone expressions, they are to express anger, shock, disappointed, excitement, happiness, seriousness, confused, and proudness

With this research the contribution for people is to make people understand about the swear words which are uttered in the movie entitled *The Wolf of Wall Street*. Moreover, to help people understand that swear words is not only to express anger, but there are other expressions that swear words can be used to express it.
