STATEMENT OF ORIGINALITY

This is to certify that all of the ideas, phrases, and sentences, unless otherwise stated, are the ideas, phrases, and sentences of the thesis writer. The writer understands the consequences including degree cancellation if he or she takes somebody else's ideas, phrases, and sentences without a proper preference.

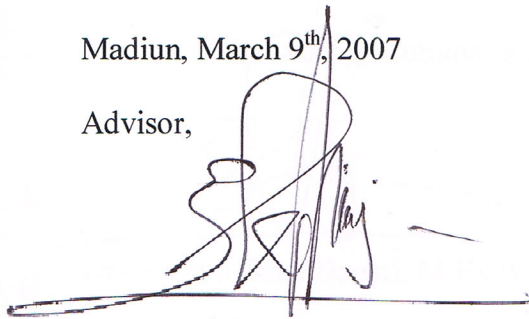

ERDIAN WIDAARI PRASETYO

APPROVAL SHEET I

This is to certify that the Sarjana Thesis of Erdian Widaari Prasetyo has been approved by the thesis advisor for further approval by the Thesis Examining Committee.

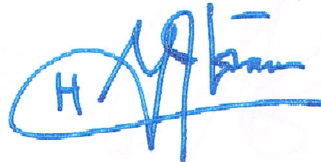

Madiun, March 9th, 2007

Advisor,

Drs. Obat Mikael Depari, M.Hum.

Co-Advisor,

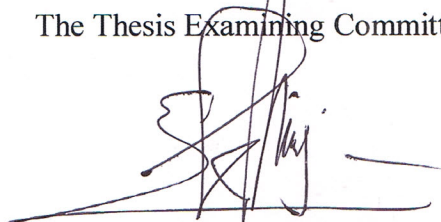

Yuli Widiana, M.Hum.

APPROVAL SHEET II

This is to certify that the sarjana thesis of Erdian Widaari Prasetyo has been approved by the Thesis Examining Committee.

Madiun, March 9th, 2007

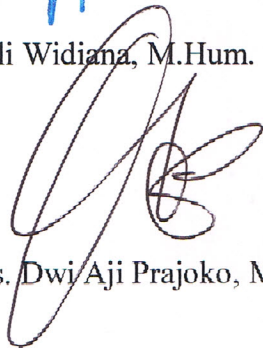

The Thesis Examining Committee,

Drs. Obat Mikael Depari, M.Hum.

Yuli Widiana, M.Hum.

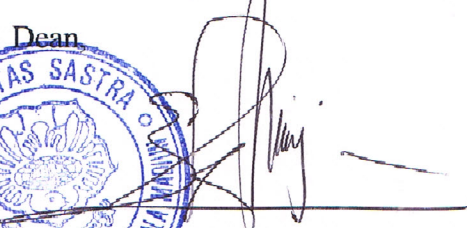

Drs. Dwi Aji Prajoko, M.Hum.

Acknowledged by, **26 MAR 2007**

The Faculty of Letters

Dean

Drs. Obat Mikael Depari, M.Hum.

Dedicated to:

- The Almighty God
- My beloved parents
- My beloved sister
- My dearly loved fiancée
- My dear best friends
- My Alma Mater

ACKNOWLEDGEMENT

First of all, I dedicate the deepest gratitude to Allah S.W.T., the Almighty God, who has been enormously blessing me to accomplish this thesis. Simply, by his generosity, I can finish my study on time. Moreover, I present a huge thankfulness to my beloved parents and sister, who have supported me in finishing this thesis financially and spiritually.

Then, I give a great appreciation and gratefulness to my thesis advisor and also the Dean of the Faculty of Letters, Drs. Obat Mikael Depari, M.Hum. and my thesis co-advisor, Yuli Widiana, M.Hum. They have wonderfully guided me with kindness and patience, so I am able to complete this thesis. Moreover, thanks to all of English Department lecturers, especially Drs. Dwi Aji Prajoko, M.Hum. because he has given me a motivation to support my research.

Next, it is really a great pleasure for me to express my truthful thanks to Fila, my adorable fiancée, who has given me her love and faith during the process of writing this thesis. My sincere gratefulness as well goes to my best friends; they are Stevy Kancil Ardiana, Budi Dynamo Santoso, Didik Kape Purnomo, Hary Boy Fitriyono, Rio Kete Pambudi, Andreas Raffi Sanjaya, Heri Chimpli Prasetyo, Diana Aryanti, and Dian Anggraini Rais. A great appreciation also goes to my high-school brothers; they are Haris Harmoko, Abadi Hayuntoro, Gito Anang Suko Widi, and Gatut Windiatmoko. Finally, thanks to everyone who recognizes me. It has been a wonderful life being with you.

ERDIAN WIDAARI PRASETYO

ABSTRAK

Kata dalam bahasa Inggris sebagian besar terbentuk dari unit-unit dasar yang disebut morfem. Morfem sendiri terbagi menjadi dua jenis yaitu: morfem bebas dan morfem terikat. Morfem terikat adalah imbuhan yang bisa berbentuk awalan atau akhiran. Dalam bahasa Inggris, kata benda dapat dibentuk dengan menambahkan akhiran pada kata kerja, kata sifat, dan kata benda. Akhiran yang biasanya digunakan untuk membentuk kata benda tersebut adalah: akhiran -ion, akhiran -or, akhiran -ment, akhiran -ism, akhiran -ness, akhiran -er, akhiran -ist, akhiran -ity, akhiran -ery, akhiran -ing, akhiran -ance, akhiran -ship, akhiran -eer, akhiran -hood, akhiran -ty, akhiran -cy, akhiran -ee, dan akhiran -dom.

Peneliti menggunakan metode deskriptif karena metode ini dianggap paling sesuai untuk menganalisis permasalahan tersebut. Metode ini digunakan dengan tahap mengumpulkan, mengklasifikasi, dan menganalisis data. Oleh karena itu, data yang digunakan dalam penelitian ini adalah akhiran derivasional pembentuk kata benda yang terdapat dalam majalah Newsweek edisi 30 September 2002.

Analisis terhadap data dalam penelitian ini menunjukkan bahwa persentase penggunaan akhiran derivasional pembentuk kata benda adalah sebagai berikut: akhiran -ion 58 data (33,1%), akhiran -or 11 data (6,3%), akhiran -ment 20 data (11,4%), akhiran -ism 3 data (1,7%), akhiran -ness 7 data (4%), akhiran -er 23 data (13%), akhiran -ist 7 data (4%), akhiran -ity 17 data (9,7%), akhiran -ery 1 data (0,6%), akhiran -ing 13 data (7,4%), akhiran -ance 5 data (2,9%), akhiran -ship 2 data (1,1%), akhiran -eer 1 data (0,6%), akhiran -hood 3 data (1,7%), akhiran -ty 1 data (0,6%), akhiran -cy 1 data (0,6%), akhiran -ee 1 data (0,6%), dan akhiran -dom 1 data (0,6%). Dengan demikian, penggunaan akhiran kata kerja yang paling produktif adalah akhiran -ion sebanyak 58 data atau 33,1%.

ABSTRACT

The smallest meaningful unit of utterance is called morpheme. There are two kinds of morphemes: free morphemes and bound morphemes. Bound morphemes are affixes: prefixes and suffixes. English noun can be formed by the addition of certain suffixes to verb, adjective, or noun. The suffixes intended are: suffix *-ion*, suffix *-or*, suffix *-ment*, suffix *-ism*, suffix *-ness*, suffix *-er*, suffix *-ist*, suffix *-ity*, suffix *-ery*, suffix *-ing*, suffix *-ance*, suffix *-ship*, suffix *-eer*, suffix *-hood*, suffix *-ty*, suffix *-cy*, suffix *-ee*, and suffix *-dom*.

In this research, the researcher uses descriptive method because this method is considered more suitable with the problems of this research. This method is used with some steps: collecting, classifying, and analyzing the data. While, the data of this research are derivational suffixes in noun formation found in Newsweek magazine, September 30th, 2002 edition.

The data analysis shows that the percentage of the use of those derivational suffixes in noun formation are as follows: suffix *-ion* 58 data (33,1%), suffix *-or* 11 data (6,3%), suffix *-ment* 20 data (11,4%), suffix *-ism* 3 data (1,7%), suffix *-ness* 7 data (4%), suffix *-er* 23 data (13%), suffix *-ist* 7 data (4%), suffix *-ity* 17 data (9,7%), suffix *-ery* 1 datum (0,6%), suffix *-ing* 13 data (7,4%), suffix *-ance* 5 data (2,9%), suffix *-ship* 2 data (1,1%), suffix *-eer* 1 datum (0,6%), suffix *-hood* 3 data (1,7%), suffix *-ty* 1 datum (0,6%), suffix *-cy* 1 datum (0,6%), suffix *-ee* 1 datum (0,6%), and suffix *-dom* 1 datum (0,6%). Therefore, the most productive usage of noun suffix in noun formation is suffix *-ion* for 58 data or 33,1%.
