

## CHAPTER V

### CONCLUSION

The structures of modification have the components such as a head and the modifier. The head is “centre” of the construction, whereas the modifier is attribution of the construction. The research entitled “*The Analysis of the Structures of Modification in English*” aims to solve the problems of the study. They are; how is the structures of modification used in the *Time* magazine articles, and what are the kinds of the structures of modification used in the *Time* magazine articles. The objectives of the study are to describe the structures of modification used in the *Time* magazine articles and to describe the kinds of the structures of modification used in the *Time* magazine articles.

The analysis of the structures of modification of *Time* magazine article is divided into Modifier + Head and Head + Modifier. The analysis of the structures of modification articles is resulting 29 of Modifier + Head (58 %), and 21 of Head + Modifier (42 %). The structures of modification Modifier + Head consists of noun as modifier and noun as a head (26 %), adjective as modifier and noun as a head (10 %), determiner and article as modifier and noun as a head (20 %), adverb as a modifier and noun as a head (4 %). Whereas, the structures of modification Head + Modifier consists of noun as a head and prepositional phrase as a modifier (10 %), noun as a head and adjective as modifier (8 %), noun as a head and noun as a modifier (24%), noun as a head and adverb as modifier (2%), and adjective as a head and adverb as modifier (2%).

The kinds of the structures of modification are divided into three kinds; the structures of modification with noun as a head (82 %), the structures of modification with adjective as a head (12 %), and the structures of modification with an adverb as a head (6 %). The kinds of the structures of modification with noun as a head contains of adjective as modifier (18%), noun as modifier (32%), prepositional phrase as modifier (28%), and adverb as modifier (4%). The kinds of the structures of modification with adjective as a head contains of adjective as modifier (2%), adverb as modifier (10%), whereas the kinds of the structures of modification with adverb as a head contains of adverb itself as modifier (6%).
